WHERE TRADITION
MEETS INNOVATION

It's more than a sport. It's a philosophy of life brought in by the AB1 products.

AB1[®]

THE TECHNOLOGY
TO FACE OFFSHORE
CHALLENGES

FISHING RODS

Manufactured according to a state-of-the-art titanium-based technology, combined with the inimitable Italian design. Using the most innovative materials and techniques, we design and manufacture unique pieces tailored to the aesthetic wishes of our customers and their performance goals. From design to texture, from the binding of the eyes to the assembly materials, such as eyes and wrap fabrics, AB1 fishing rods can be fully customized: always ready for new offshore challenges!

• ITALIAN DESIGN

The Made-in-Italy manufacture is a guarantee of uniqueness and attention to detail.

• EASY TO USE

User-friendly, comfortable and top performance tools.

• EXTREME CUSTOMIZATION

The wide range of models meets everybody's tastes and your fishing experience will be unforgettable!

ROLLER GUIDES

It's well known fact that conventional roller guides steal a rod's performance potential, its design or cost. Each wrapped guides creates a flat spot in the arc of the blank and the dreaded "broomstick effect" kicks in.

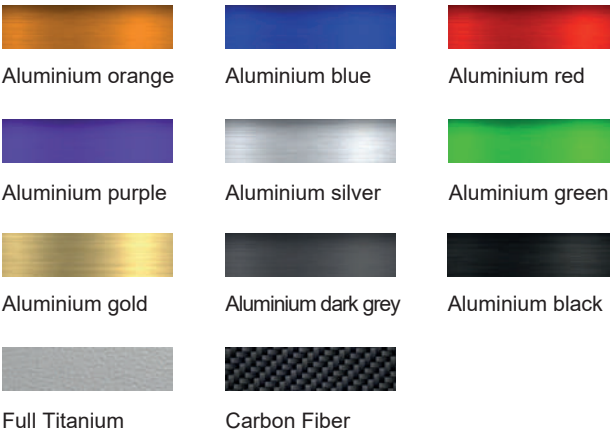

The magic of AB1 roller guides, covered by international patent, is that they attach to the rod on independent mounting feet. The performance engineered into your rod blank remains in play without compromise. Thank to AB1's multi-axis movement concept a rod blank action potential remains available 100% of the time! First time users are amazed by how much action is unleashed and how much more lively their rod feels. Even better is how much faster fish are brought to the rail!

KEY FEATURES:

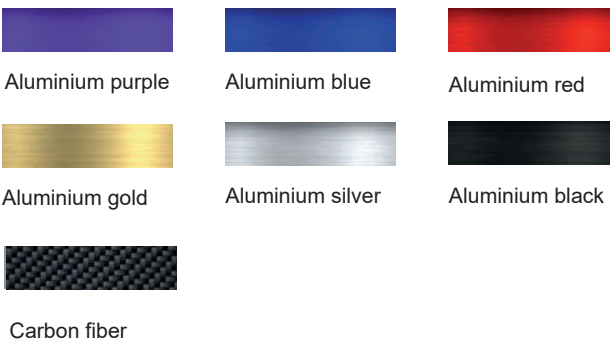

- **Chassis:** aluminum, titanium or carbon fiber
- **Roller (pulleys):** titanium ride on Japan stainless bearings
- **30/50 class guides options:** RR1, RR2 single wheel. RR3 double-wheel "stripper" guide
- **80/130 class guides options:** RX1, RX2, RX4 single wheel. RX5 double-wheel "stripper" guide
- **Service:** innovative self lubricant design.
- Protected by **world-wide patent**.

TIP TOPS

AB1 Tip tops are made of finest titanium using the latest technology to offer maximum strength with beautiful design.

• 30/50 Class:

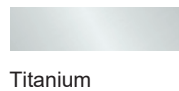

- TUBE ID 1/64" (mm)**
- 9.0 (3,6 mm)
 - 10.0 (4,0 mm)
 - 11.0 (4,4 mm)
 - 12.0 (4,8 mm)
 - 13.0 (5,2 mm)
 - 14.0 (5,6 mm)
 - 15.0 (6,0 mm)

• 80/130 Class:

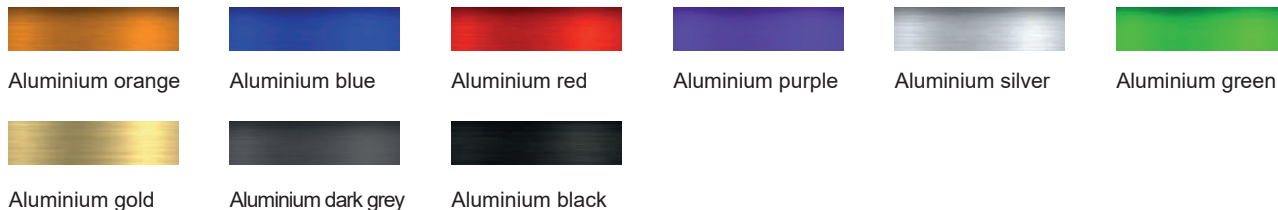

- TUBE ID 1/64" (mm)**
- 10.0 (4,0 mm)
 - 12.0 (4,8 mm)
 - 14.0 (5,6 mm)
 - 16.0 (6,4 mm)
 - 18.0 (7,2 mm)
 - 20.0 (8,0 mm)
 - 22.0 (8,8 mm)
 - 24.0 (9,6 mm)
 - 26.0 (10,40 mm)

CARBON FIBER BUTTS

The AB1 butts are made entirely of high quality unidirectional carbon fiber, 100% structured in layers, which give high resistance to impacts and foreseen loads. The geometry is obtained in a mould with a special autoclave cycle to give maximum performance.

• ERGONOMICS:

Maximum practicalness combined with utmost handiness.

• TECHNOLOGY:

Inspired by Formula 1, the handles are light and performing as entirely made of carbon fiber.

• MADE IN ITALY PRODUCTION:

The handles are made in Italy and stand out for the construction accuracy. Inimitable all over the world.

CARBON FIBER CURVED BUTTS	
PART NUMBER	MATERIAL
BUB2C 30/50 lbs	6085-T6 Carbon Fiber
BUB4C 50/80 lbs	6085-T6 Carbon Fiber
BUB6C Unlimited	6085-T6 Carbon Fiber

CARBON FIBER STRAIGHT BUTTS	
PART NUMBER	MATERIAL
BUB2 30/50 lbs	6085-T6 Carbon Fiber
BUB4 50/80 lbs	6085-T6 Carbon Fiber
BUB6 Unlimited	6085-T6 Carbon Fiber

REEL SEATS

Innovative reel seats, built one by one in structural carbon fiber with anodized aluminum ferrule, do not stop the action of the blank at the fixing point, as they flex at the same time, increasing reaction time.

CARBON AND ALUMINUM

CARBON AND TITANIUM

HARNESS

The AB1 Tackle new product design team has raised the odds for stand up fishing fanatics with an all-new featherweight carbon fiber big game harness that enters the ring as a flyweight yet delivers a heavyweight punch vital for big game stand up fishing.

• BEAUTY IN THE DETAILS

Every hand-finished element, from the hand-laid multilayer carbon composite body to the supple EV50 padding, premium harness belts, webbing and stainless steel hardware were specifically chosen for their ability to survive the rigors of the marine environment.

• MADE ONE BY ONE

Each harness is made one by one, resulting in each one being unique and may have some little imperfections.

• LIGHTWEIGHT AND POWERFUL

Weighing in at an amazing 950 grams, you forget you've got it on! It focuses more of your energy for more effective stand up fishing, shorter battles and more fish to the boat!

SWIVEL ROD HOLDER

Fits in most rod holders and will swivel 360. Made of stainless steel with universal gimbal mount. Ideal for handling big fish, this drop-in swivel converts any in-gunnel rod holder to a rod swivel rod holder instantly.
